

STATE OF VERMONT
PUBLIC SERVICE BOARD

Docket No. 7594

Petition of Addison Solar Farm, LLC, for a)
Certificate of Public Good, pursuant to 30 V.S.A.)
Section 248, authorizing the installation and)
operation of a solar electric generation facility in)
Ferrisburgh, Vermont)

Entered: 8/3/2010

CERTIFICATE OF PUBLIC GOOD ISSUED
PURSUANT TO 30 V.S.A. SECTION 248

IT IS HEREBY CERTIFIED that the Public Service Board ("Board") of the State of Vermont this day found and adjudged that the proposed installation and operation of a solar electric generation facility in Ferrisburgh, Vermont, by Addison Solar Farm, LLC, in accordance with the evidence and plans submitted in this proceeding, will promote the general good of the State, subject to the following conditions:

1. Construction, operation, and maintenance of the proposed project shall be in accordance with the plans and evidence as submitted in these proceedings. Any material deviation from these plans must be approved by the Board.
2. The proposed project is hereby certified as a Sustainably Priced Energy Enterprise Development project.
3. Addison Solar Farm shall comply with any applicable requirements regarding the disclosure of renewable attributes that are established in other proceedings, including Docket 7533, and Board Rules.
4. Addison Solar Farm shall pay the entire cost of the distribution system upgrades.
5. During the first year of operation, Addison Solar Farm shall comply with the requirements of the Reflectivity Monitoring Plan agreed upon by the parties. Based on the results of the Reflectivity Monitoring Plan, the Board reserves the right to require Addison Solar Farm to install additional mitigation measures.
6. All construction activities shall comply with the site-specific Erosion Prevention and Sediment Control Plan developed for the proposed project.

7. Prior to proceeding with operation, Addison Solar Farm shall comply with the screening requirements of the landscaping plan agreed upon by the parties.

8. Prior to proceeding with construction, Addison Solar Farm shall submit to the Board for review and approval a plan for the creation of a decommissioning fund. Parties shall have one week, from the date the plan is filed with the Board, to file any comments.

9. Prior to commencement of operations, Addison Solar Farm shall obtain all necessary permits and approvals. Construction, operation, and maintenance of the proposed project shall be in accordance with such permits and approvals, and with all other applicable regulations, including those of the Agency of Natural Resources.

10. Within 30 days of the completion of construction of the proposed project (including installation of all landscaping), Addison Solar Farm shall arrange a site visit with the Board and all parties to review the effectiveness of the aesthetic mitigation measures, as installed. As a result of this inspection, the Board reserves the right to require Addison Solar Farm to install additional mitigation measures.

11. This Certificate of Public Good shall not be transferred without prior approval of the Board.

DATED at Montpelier, Vermont, this 3rd day of August, 2010.
